# Intelligent Systems

#### Embedded World and Mobile Compute World Collide

### **Embedded Tech Trends**

2013: Embedded Technologies in Action

#### Mobile Computer World

#### **Embedded World**

Mobility Flexibility Rapid Innovation

Stability Longevity Quality/Reliability

# **Result of Collision**

### **Embedded Tech Trends**

2013: Embedded Technologies in Action

#### Creation of Intelligent Systems Segment

- Multi-core/Advanced Processors
- Always on/intelligent connectivity
- High-level OS and User-Machine Interface
- Data Generation and analysis

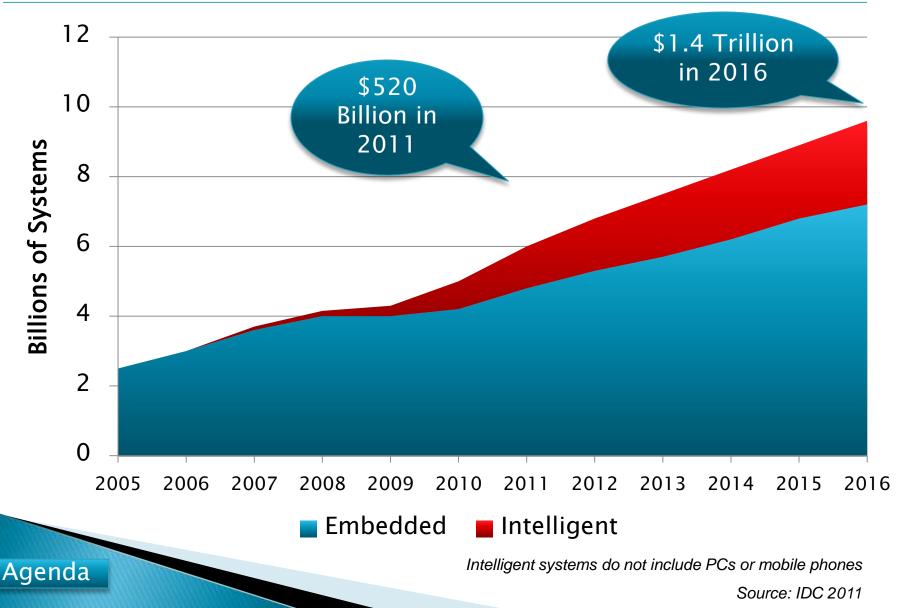

#### Intelligent Systems are:

- Connected
- Secure
- Managed
- Intelligent

# Systems Revenue and Shipments, 2005-2016

#### **Embedded Tech Trends**
